SUMMARY

As a full stack web developer with 2 months of experience as a process associate from Han digital solution, I have honed my skills in both technical and organizational aspects of the job. My biggest achievements include successfully developing and launching multiple websites from scratch, while also streamlining and improving the company's process efficiency during my time as a process associate. My strong attention to detail, problem-solving abilities, and adaptability make me an asset in any team. With expertise in front-end and back-end development, as well as proficiency in various programming languages and frameworks, I am confident in my ability to deliver high-quality projects and contribute to the growth of any organization.

WORK EXPERIENCE

Process Associate

July 2024 - September 2024

Han digital solution Pvt Ltd / Indian, Bangalore (remote)

During my time as a Process Associate at Data annotation use sage maker tool in Indian, I was responsible for ensuring the accuracy and quality of data annotation using the sage maker tool. I was also involved in process improvement initiatives to streamline workflows and increase efficiency.

- Quality control for data annotation
 - Process improvement initiatives
 - Utilized sage maker tool for data annotation
 - Collaborated with team members on projects
-

EDUCATION

B.sc(Mathematics &computer Science)

2021 - 2024

Integral University, India, Lucknow

Intermediate

2019 - 2021

N S children Academy, India, Gorakhpur

High school

2017 - 2019

Sepping Stone inter college, India, Gorakhpur

ADDITIONAL INFORMATION

- **Technical Skills:** HTML, JavaScript, React.js, MySQL, MongoDB, RESTful APIs, Node.js, java, C programming, Ms Excel, Ms Word, Express js, Mongo Db, Tailwind CSS and Amazon sage maker.
- **Soft Skill:** Adaptability, Communication, Time Management and Teamwork.

PROJECT

- **E - Commerce Website**

Developed an eCommerce website using MERN stack, featuring a comprehensive set of functionalities including homepage, search, user registration, login, cart management, filtering, category organization, and an intuitive admin panel.

- **Learning Management system**

Learning Management System (LMS) using the MERN stack (MongoDB, Express.js, React.js, Node.js). The project included user authentication for secure login and access, along with comprehensive course management features for creating, updating, and deleting courses. I integrated real-time Admin Panel functionality to enhance Statistics and designed a responsive user interface to ensure a seamless experience across various devices. Additionally, I implemented RESTful APIs for efficient data handling, utilized MongoDB for scalable data storage, and employed Express.js for server-side logic and routing. React.js was used for building dynamic front-end components, while Node.js ensured smooth server-side operation

CERTIFICATION

- August 2023 / PW SKILLS
Full-stack web development
